

## 12 ユニットバスのシャワーについて (家族室)

### About the shower in your bathroom (Family room)

必ず浴槽内でシャワーを使用し、浴槽の外には絶対に水を流さないでください。掃除はタオルで拭く様にし、水は流さないでください。便器の下から水が染み込み、水漏れの原因になります。水を流した事が原因で水漏れが起きたときは修理費を請求しますので、気を付けてください。

Please take a shower in bathtub.

Do not let water run outside of bathtub.

Please wipe the floor with a towel for cleaning.

Water can easily go through the joint part between the floor and the toilet.

This is the cause of the leaking in a downstairs bathroom.

If the water begins to leak, you must pay for the repair.

Take a shower here

Do not use water here

Water goes through from here
